

We are looking for an **Application Scientist** to join our team at Sovicell to the earliest possible date. The position is a full-time position (40 h/week) and is located in Leipzig (Germany).

Principle Duties and Responsibilities

- Distribution of our products as well as scientific and technical consultancy to our worldwide customers via direct contact, telephone and email
- Establish relationships to our existing customers and focus on acquisition of new customers
- Demonstration and explanation of our products at the customer and on different events
- Giving training and advice both on-site and online concerning design and execution of in vitro ADME/Tox analyses
- Presentation of scientific results and of the company at congresses and exhibitions
- Writing of scientific papers
- Professional and organizational leading of the laboratory and its personnel
- Scientific support for new developments

Requirements

- You hold a degree in pharmacology, biochemistry, chemistry or a comparable area. A PhD in one of these areas is of advantage.
- You speak fluently English. Basic knowledge in German is a plus.
- Ideally you have 2 - 3 years of experience in ADME/Tox within the pharmaceutical industry.
- Experience in training, marketing and sales are also a benefit.
- You are able to explain complex facts in a simple and comprehensible way.
- You are willing to travel occasionally in Germany and abroad.
- You would like to take on responsibility, and you would like to realize your own ideas to sell our products and to develop them further.
- You have a communicative personality and you like to work together with customers, colleagues, suppliers and distributors.

What we offer to you

- A responsible and diversified job with different career options
- Working in an international team
- Professional training options
- Modern workplaces and flexible work time
- Leipzig is a modern city with a long and illustrious history offering many leisure activities in the field of history, culture, sport and nature.

Application

- Please send your application including possible entry date and salary expectation to jobs@sovicellsfl.com.
- The mail shall not exceed 8 MB.
- For further information please contact Ms. Dr. Katharina Porsch via phone (+49-341-520440) or email (kpo@sovicellsfl.com).
