## Frequently Asked Questions: Contract Services

1. **How long does it typically take from compound submission until results are communicated to the customer?**

Typically, our turn-around time is three weeks on contract work, however, the handling time may vary from project to project, depending upon the specific requirements.

2. **Which analytical methods are available at Sovicell?**

Our laboratory has LC/MS, HPLC, UV, and fluorescence detection systems available for use in your projects with small molecules.

3. **Which quality standards can be assured for the contract work?**

Our facility is ISO9001:2000 certified and is dedicated to best laboratory praxis to assure highest quality results from experiments and analytics.
